

April 02, 2020

Dear Parents,

Chindamaneer School English Program would like to give you an update on the current situation at school regarding the COVID-19 Epidemic and how it is affecting our school, students and staff.

We know that the COVID-19 pandemic is affecting all our students and families in different ways. And we would like to tell you that as a school we stand by to help you through this crisis as much as we can.

On the other hand, our school is open and preparing for whatever may happen. As things stand now and with a consultation with the office of Private education, we fully expect the school to open in May as usual. And therefore, we implore you to pay your book fees and tuition fees as usual. We can send your books to you by a messenger (At your expense), or you may arrange to pick it up at security. Alternatively, we can put it on their shelves.

We will be running an online summer school to keep some of our students who would like to study and to test the Online education system. So, that even if something goes wrong in May, we can continue to teach students online for however long it is required to solve the issue. Most international school in Thailand are teaching online now as they are still in school.

If you have joined the Online summer school, we will invite you to a LINE group on Friday. In this group, we will be providing all the required information for you to join the online classes.

We wish all our parents and student a happy and safe April **AT HOME** and good health.

Regards and Stay Safe,
Asma Pariliti
Director
